August 27, 1992

Mr. Wendell Owen  
Co-Op Mining Company  
P.O. Box 1245  
Huntington, Utah 84528

Dear Mr. Owen:

Re: Return of the Earthfax Report entitled "Revised Hydrogeologic Evaluation of the Bear Canyon Mine Permit and Proposed Expansion Areas", Bear Canyon Mine, Co-Op Mining Company, ACT/015/025-92J, Folder #2, Emery County, Utah

Enclosed please find the report referenced above. The Order by the Division Director, dated May 20, 1991, required submittal of the revised Probable Hydrologic Consequence (PHC), which was received August 17, 1992. The Utah Coal Mine Regulations require detailed information on groundwater and physical resources that affect groundwater and surface water in the permit and adjacent areas for the PHC. A summary of the above-referenced report, however, is not considered a revised and updated PHC. A complete and adequate revised PHC of which this report may be part, must be submitted as part of the permit application package.

If you have any questions about the submittal of the revised PHC, please call me.

Sincerely,

Pamela Grubaugh-Littig  
Permit Supervisor

Enclosure
